## HELLO AND WELCOME

# Welcome to the second public event organised by Grosvenor Britain & Ireland for the Cundy Street Quarter.

Today we are presenting the progress made since our first public event in April where we shared our ambition and indicative masterplan.

Thank you to those that took part in our early discussions, sharing your local knowledge and expertise. The feedback received to date has contributed to our emerging designs for the Cundy Street Quarter, which are displayed here today.

## THANK YOU TO THOSE THAT TOOK PART IN OUR EARLY DISCUSSIONS

**Over 300** 

Visitors to the public events

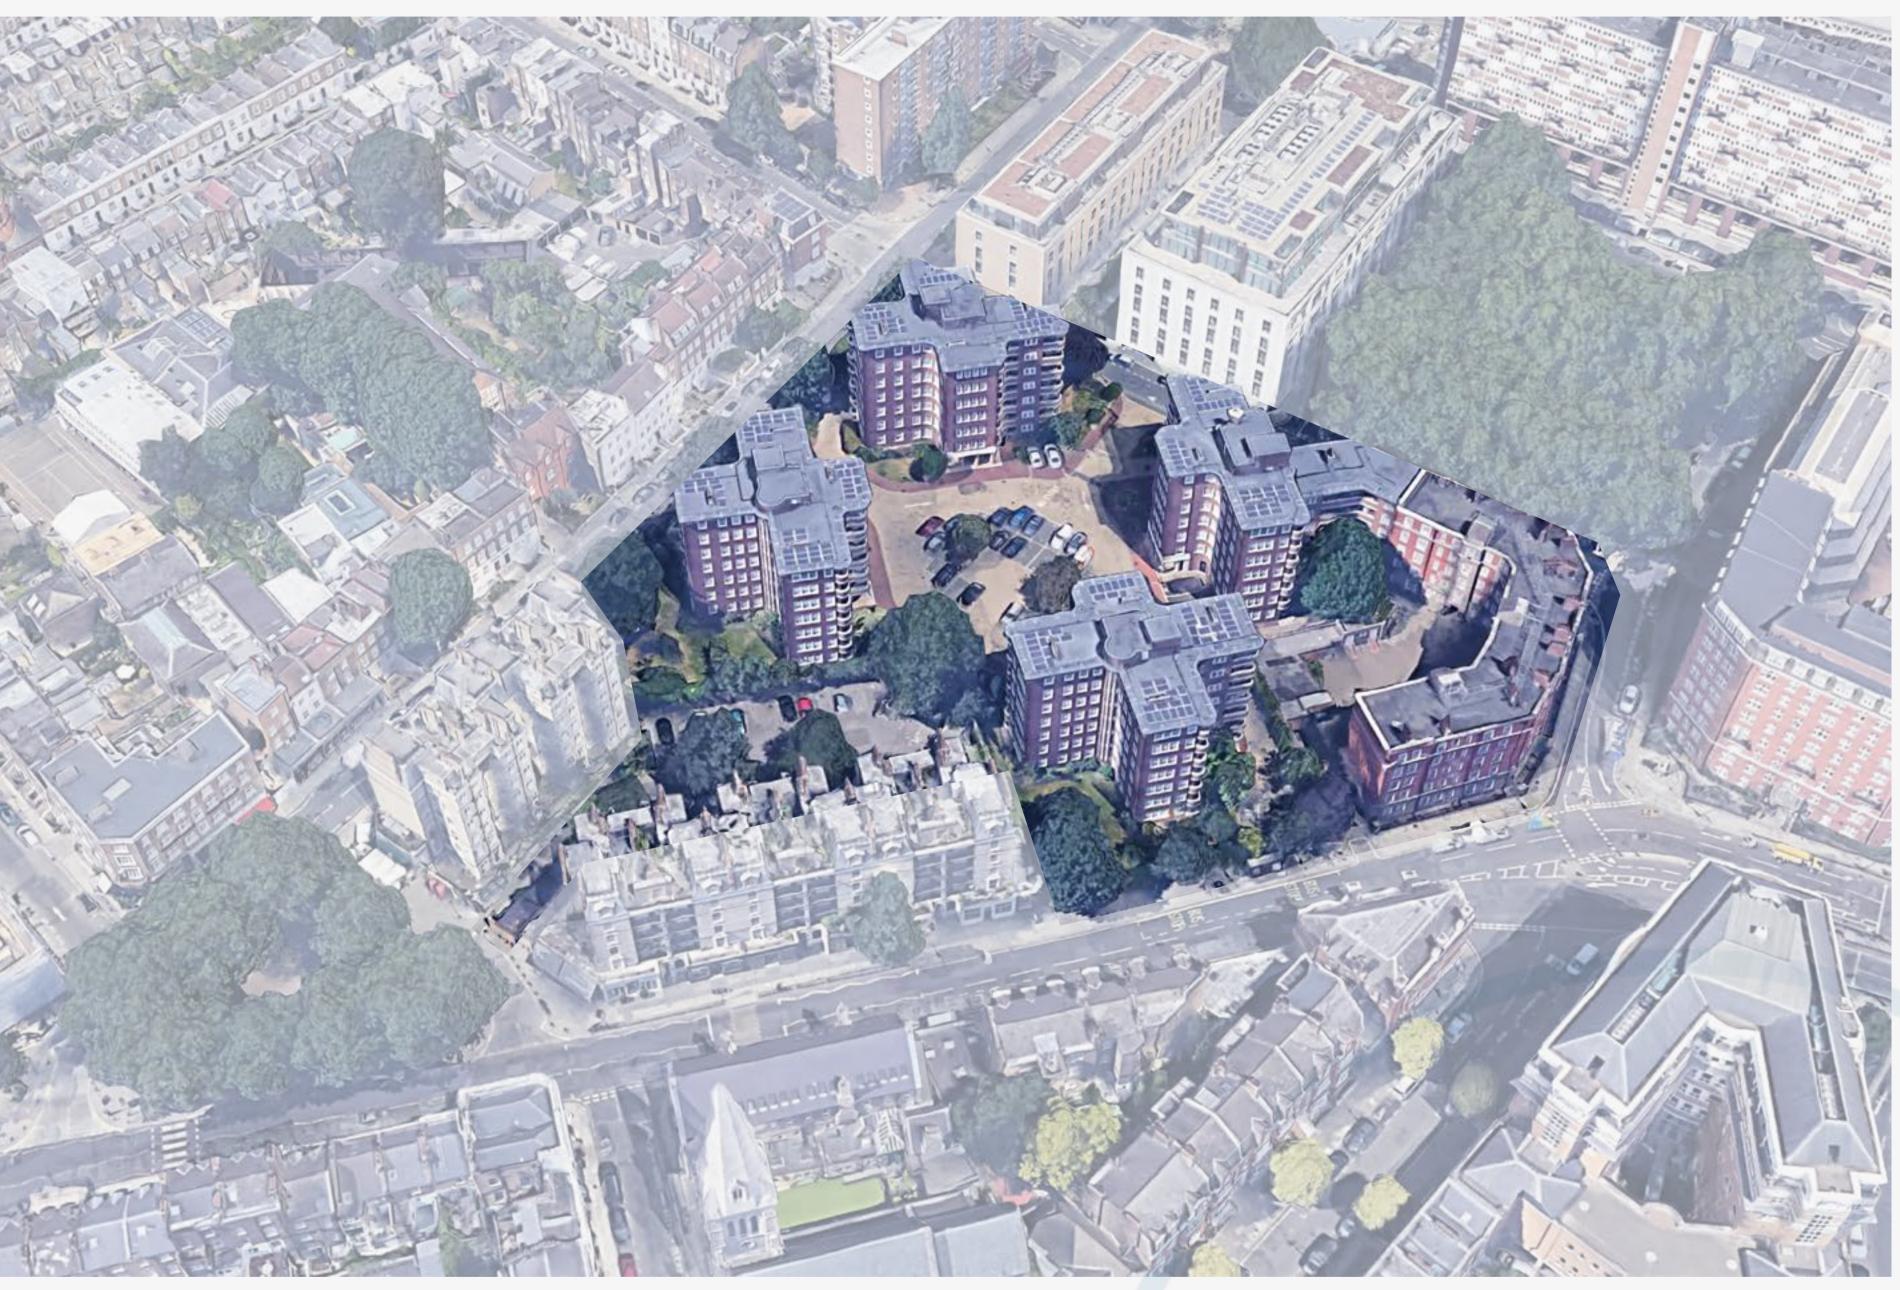

Over 6,500

Visits to the website

**Over 650** 

Responses submitted

The Cundy Street Quarter in southern Belgravia is bordered by Ebury Street, Cundy Street and Pimlico Road

In April, we asked you to vote for which local charity would receive a share of a £10,000 donation from Grosvenor. Thank you for your votes – the following donations have been made:

£2,800

£2,400

£4,800

## WHAT YOU HAVE TOLD US

These are the key themes you highlighted which we are now looking to incorporate into our proposals for the Cundy Street Quarter.

### MIX OF USES

### PROVIDE A MIX OF USES

Respondents welcomed the opportunity for Cundy Street Quarter to provide a range of amenities

### 67% like the proposed mix of ground floor uses

"It encourages residents to mingle and should help with any loneliness. Too often one goes into ones apartment and doesn't come out!"

### CREATE SPACE FOR NEIGHBOURHOOD SHOPS

Respondents wanted to see a variety of smaller, neighbourhood shops at a range of price points

### 67% wanted local neighbourhood shops

"As long as you can have a mix of small shops like bookshops, café or brasserie etc."

### PROVIDE A NEW FOOD STORE/ MINI-SUPERMARKET

Respondents felt the area lacked an affordable local food store

## The provision of a mini supermarket topped responses at the public exhibition for what people would like to see in the local area

"We would very much like to see: more/better quality green spaces' a local supermarket; and characterful local food shops/restaurants/coffee shops."

### **OVERALL PROPOSALS**

### CREATE A NEW VILLAGE CENTRE

Respondents welcomed the opportunity to open up a currently closed off area to create a new village centre

## The majority of respondents think the proposal will be a positive addition to the local area

"Great to address the problems in this micro-location within the context of lower Belgravia – fantastic job."

"Excellent presentation and initial proposals look suitable for purpose – the area is unique and this initiative seems to aim to retain the local character."

### **PUBLIC AND GREEN SPACE**

### BETTER URBAN LANDSCAPING

People want to see more trees and greening in any new development

## More trees and greening were the most popular option to improve local public open space

"I really do think your proposal will be of benefit to the area. Create more green space, walkways, commercial and residential lifestyles..."

## CREATE PUBLIC AND PRIVATE SPACES FOR RESIDENTS AND THE COMMUNITY

Respondents want new green, open and safe areas to enjoy

## 72% like the creation of new pedestrian routes through the area

"A flow through of walkway with stores/craft coffee shops and restaurants, planted with bushes/trees would definitely add to the space."

### COMMUNITY

## RETAIN THE AREA'S MIXED COMMUNITY

Respondents value a mixed community with homes provided for people of all ages and incomes

## 58% like the residential mix proposed on upper floors

"As long as it is done with thought and sensitivity to the variety of residents circumstances."

## INCORPORATE NEW COMMUNITY SPACES WITH A RANGE OF PRICE POINTS

People expressed a clear wish to see reasonably priced places for local people to meet and socialise

## Respondents would like to see more community facilities in this area

## OUR COMMITMENTS

Following your feedback we have developed our seven principles into the following eleven commitments.

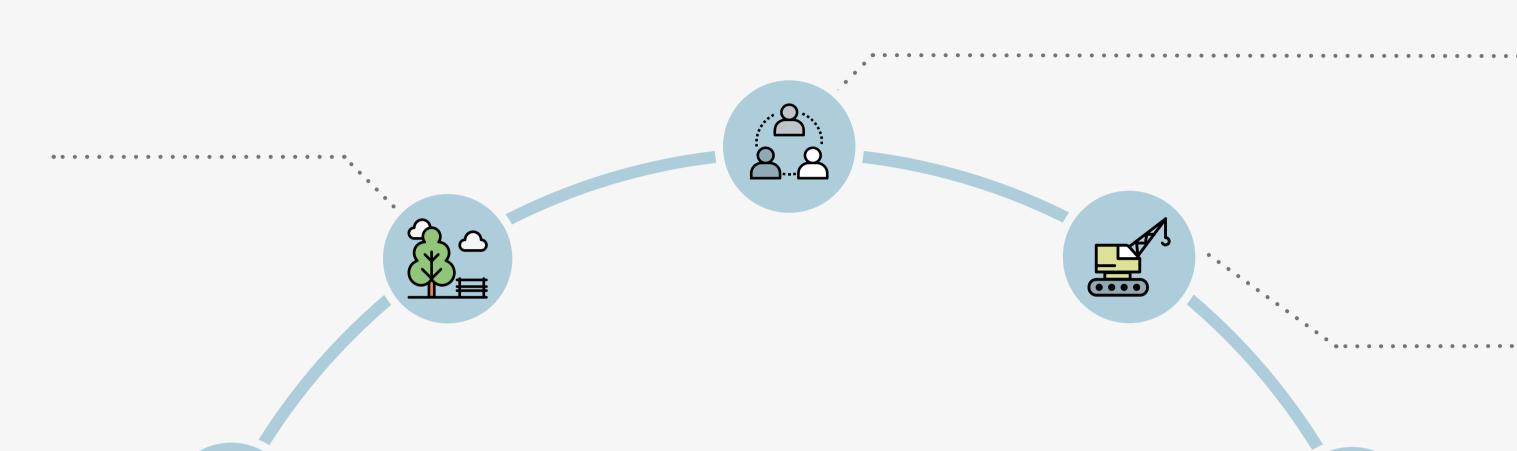

Retain the **village feel of southern Belgravia** while creating a new and enhanced environment for residents to enjoy.

Provide more onsite affordable, private and senior living homes for local and wider-London residents built to modern standards.

Delivering a mixed community and helping social integration.

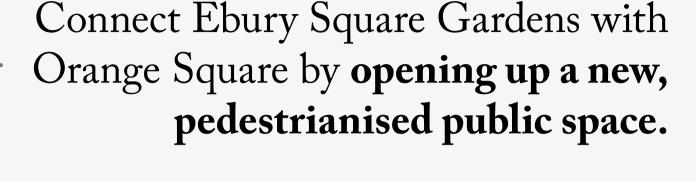

Establish space for **local neighbourhood shops** to provide a wider variety of retail and food & drink offerings.

Deliver buildings designed to the highest quality that complement the historic character of southern Belgravia.

OUR AMBITION IS TO ENHANCE THE EXISTING VILLAGE FEEL OF BELGRAVIA BY CREATING A MIXED COMMUNITY WITH NEW HOMES, IMPROVED PUBLIC SPACES AND NEIGHBOURHOOD AMENITY. THE ARCHITECTURE AND DESIGN WILL BE SENSITIVE BUT AMBITIOUS, EXEMPLIFYING SUSTAINABILITY & WELLBEING TO BECOME AN EXEMPLAR DEVELOPMENT

IN LONDON.

Protect people and the environment affected by our activities. We are a founding client partner with the Considerate Contractors Scheme and all of our construction partners subscribe to the CCS.

Create an attractive and safe pedestrian environment with new lighting, planting and seating for all to enjoy.

Design open and welcoming public spaces with **increased greening and** landscaping.

QO

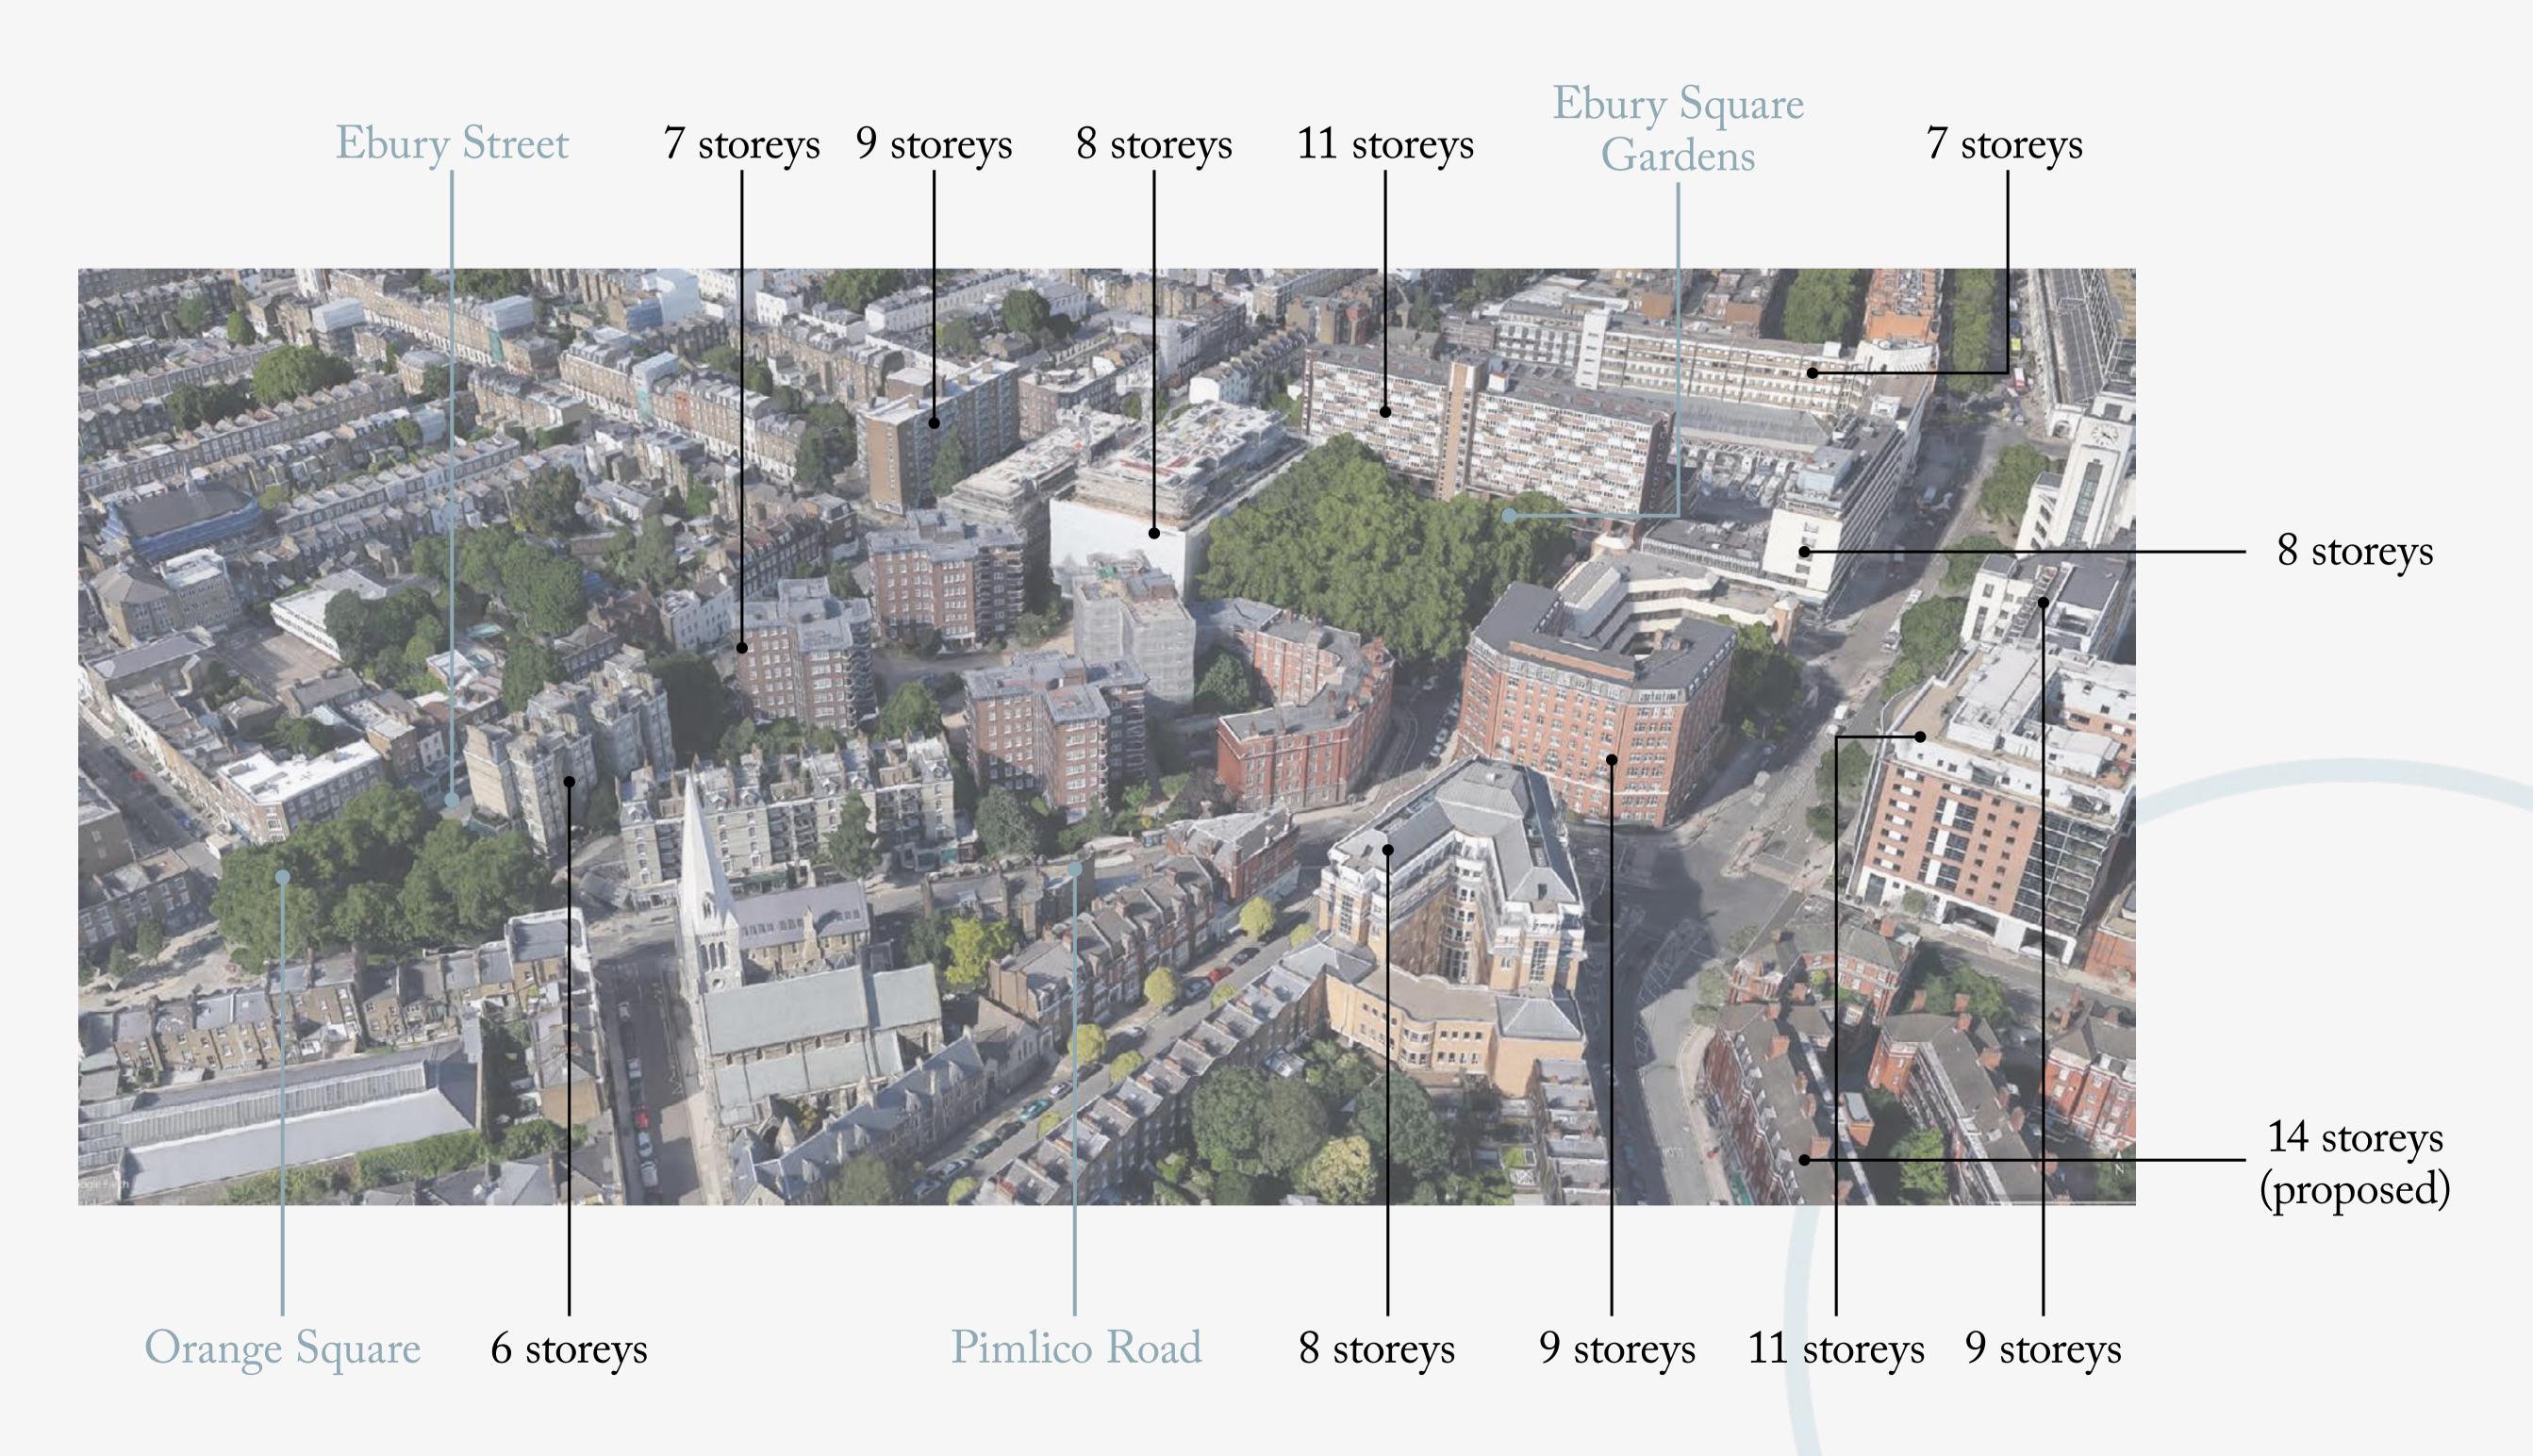

Deliver a **legacy of social and economic benefits** in our neighbourhoods and improve the wellbeing of those living, learning and working in the area.

Accessible and efficient servicing strategy that provides a **safe and pleasant environment** for the community.

## SURROUNDING CONTEXT

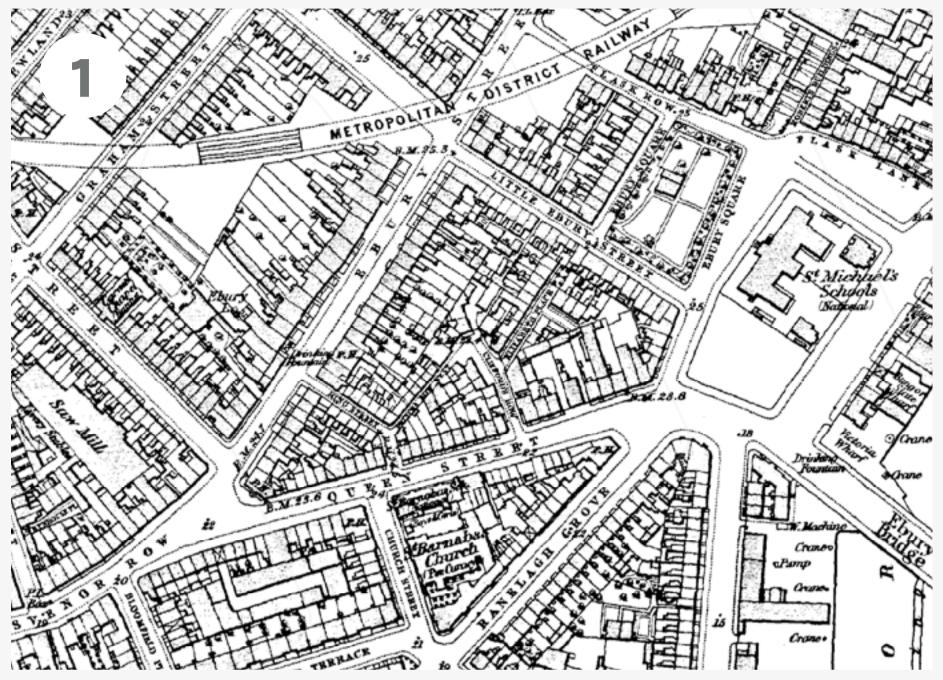

CUNDY STREET QUARTER HAS THE UNIQUE CHALLENGE OF RESPONDING TO FIVE KEY CHARACTER AREAS OF EBURY STREET, ORANGE SQUARE, PIMLICO ROAD, EBURY SQUARE AS WELL AS THE NEW VILLAGE CENTRE.

- We want to create a high quality development, ensuring the design responds to the unique location and character of the local context.
- We are mindful of sensitive setting, including the adjacent Belgravia Conservation Area and listed buildings.

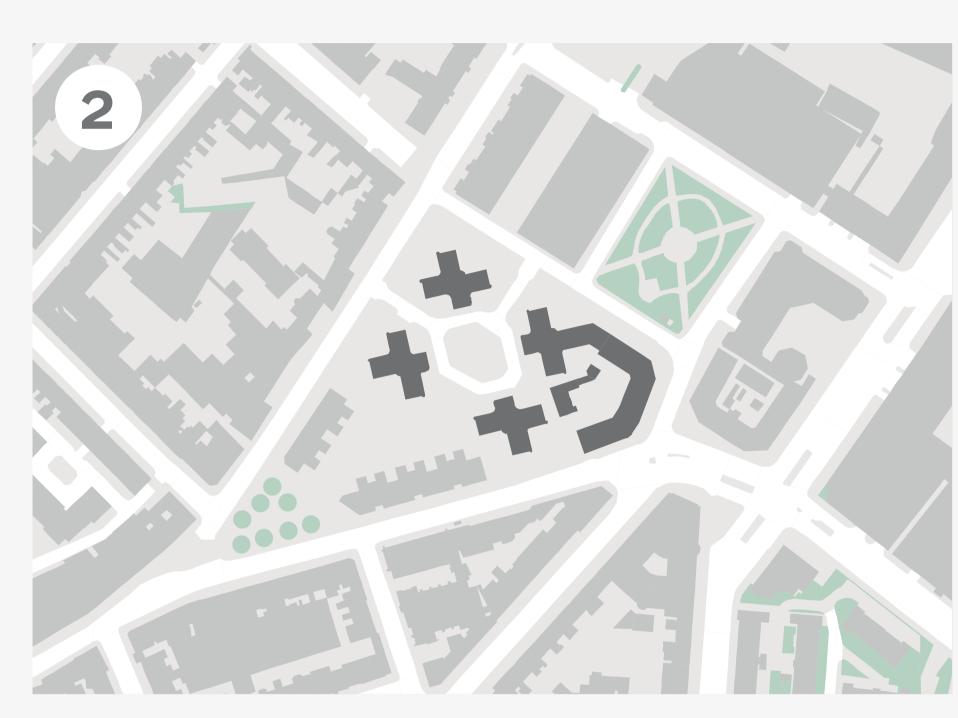

## MASTERPLAN DEVELOPMENT

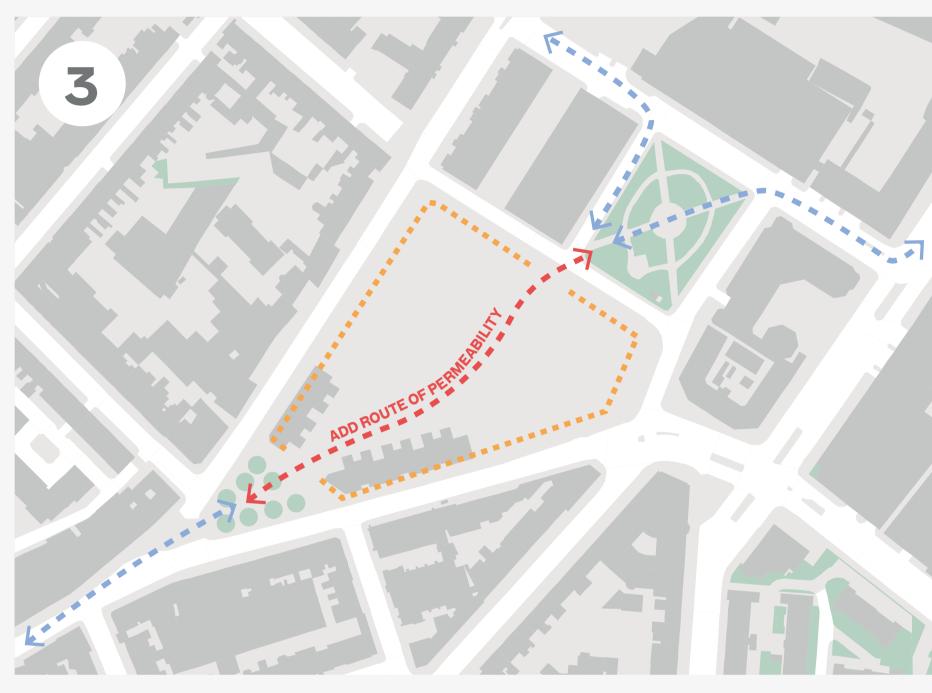

The architects at DSDHA and the design and urban landscape team at Todd Longstaffe-Gowan have developed proposals that respond sensitively to each of the neighbouring areas and consultation feedback, whilst improving the use of the site and opening new pedestrian routes.

The site in the 1870s.

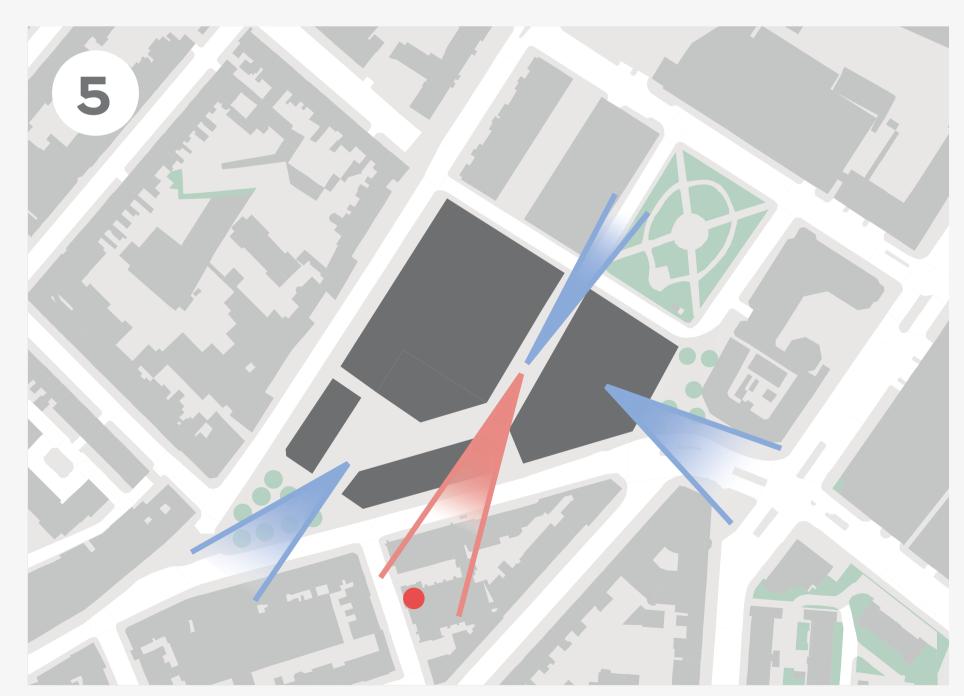

Current site layout.

The proposed route through the site reinstates the historic street pattern as seen in the 1870s map above, creating a link between Orange Square and Ebury Square Gardens, as well as Pimlico Road and Ebury Street.

The public realm opportunities are key to the local area. In addition there is the opportunity to design a new third public space to the South–East which would further enhance it as a gateway site to Belgravia.

Preserving historic views from within the site, particularly the view of the Grade I Listed St Barnabas Church spire, is critical to encourage people to move through the new village centre.

The initial masterplan shown here is articulated by a series of mansion blocks providing street presence and responding to their distinct addresses.

## MIX OF USES – A NEW VILLAGE CENTRE

## THE PROPOSED GROUND FLOOR LAYOUT CREATES OPPORTUNITIES FOR NEW LOCAL SHOPS, SERVICES AND COMMUNITY SPACES.

A vibrant mix of retail and other uses are located to create character as well as a place for people to meet, and will encourage movement through the site.

#### **FEEDBACK RESPONSE**

Respondents wanted new community spaces. Our proposals include a designated area for community space and we want to explore with you what it could look like.

### **FEEDBACK RESPONSE**

Respondents said they wanted a small supermarket and more neighbourhood shops. Our proposals include provision for neighbourhood retail and food/drink offerings as well as a small supermarket.

## PLAN YOUR VILLAGE CENTRE

In April you told us which uses were important to you, so we would like you to identify where these uses could be put on our initial ground floor plan which you can find on the table in the centre of the room.

#### **GROUND FLOOR**

## MIX OF USES - NEW HOMES AND GREEN SPACES

A MIX OF RESIDENTIAL ON THE UPPER LEVELS ARE ARRANGED AROUND SHARED COURTYARDS AND GENEROUS GARDENS, WITH FURTHER GARDEN SPACE PROVIDED AT ROOF LEVEL.

Cundy Street Quarter can deliver new affordable, private and senior living homes for local and wider-London residents within a mixed neighbourhood.

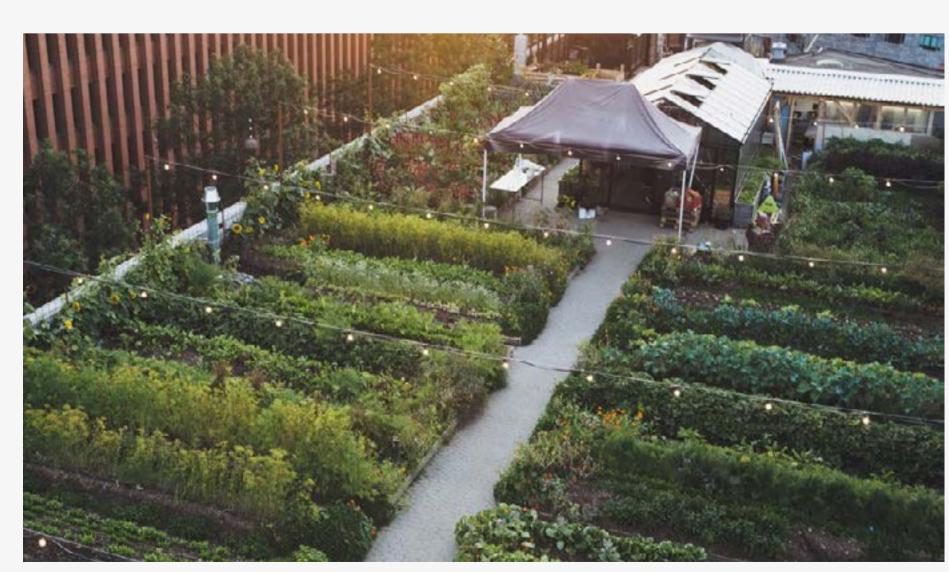

### **FEEDBACK RESPONSE**

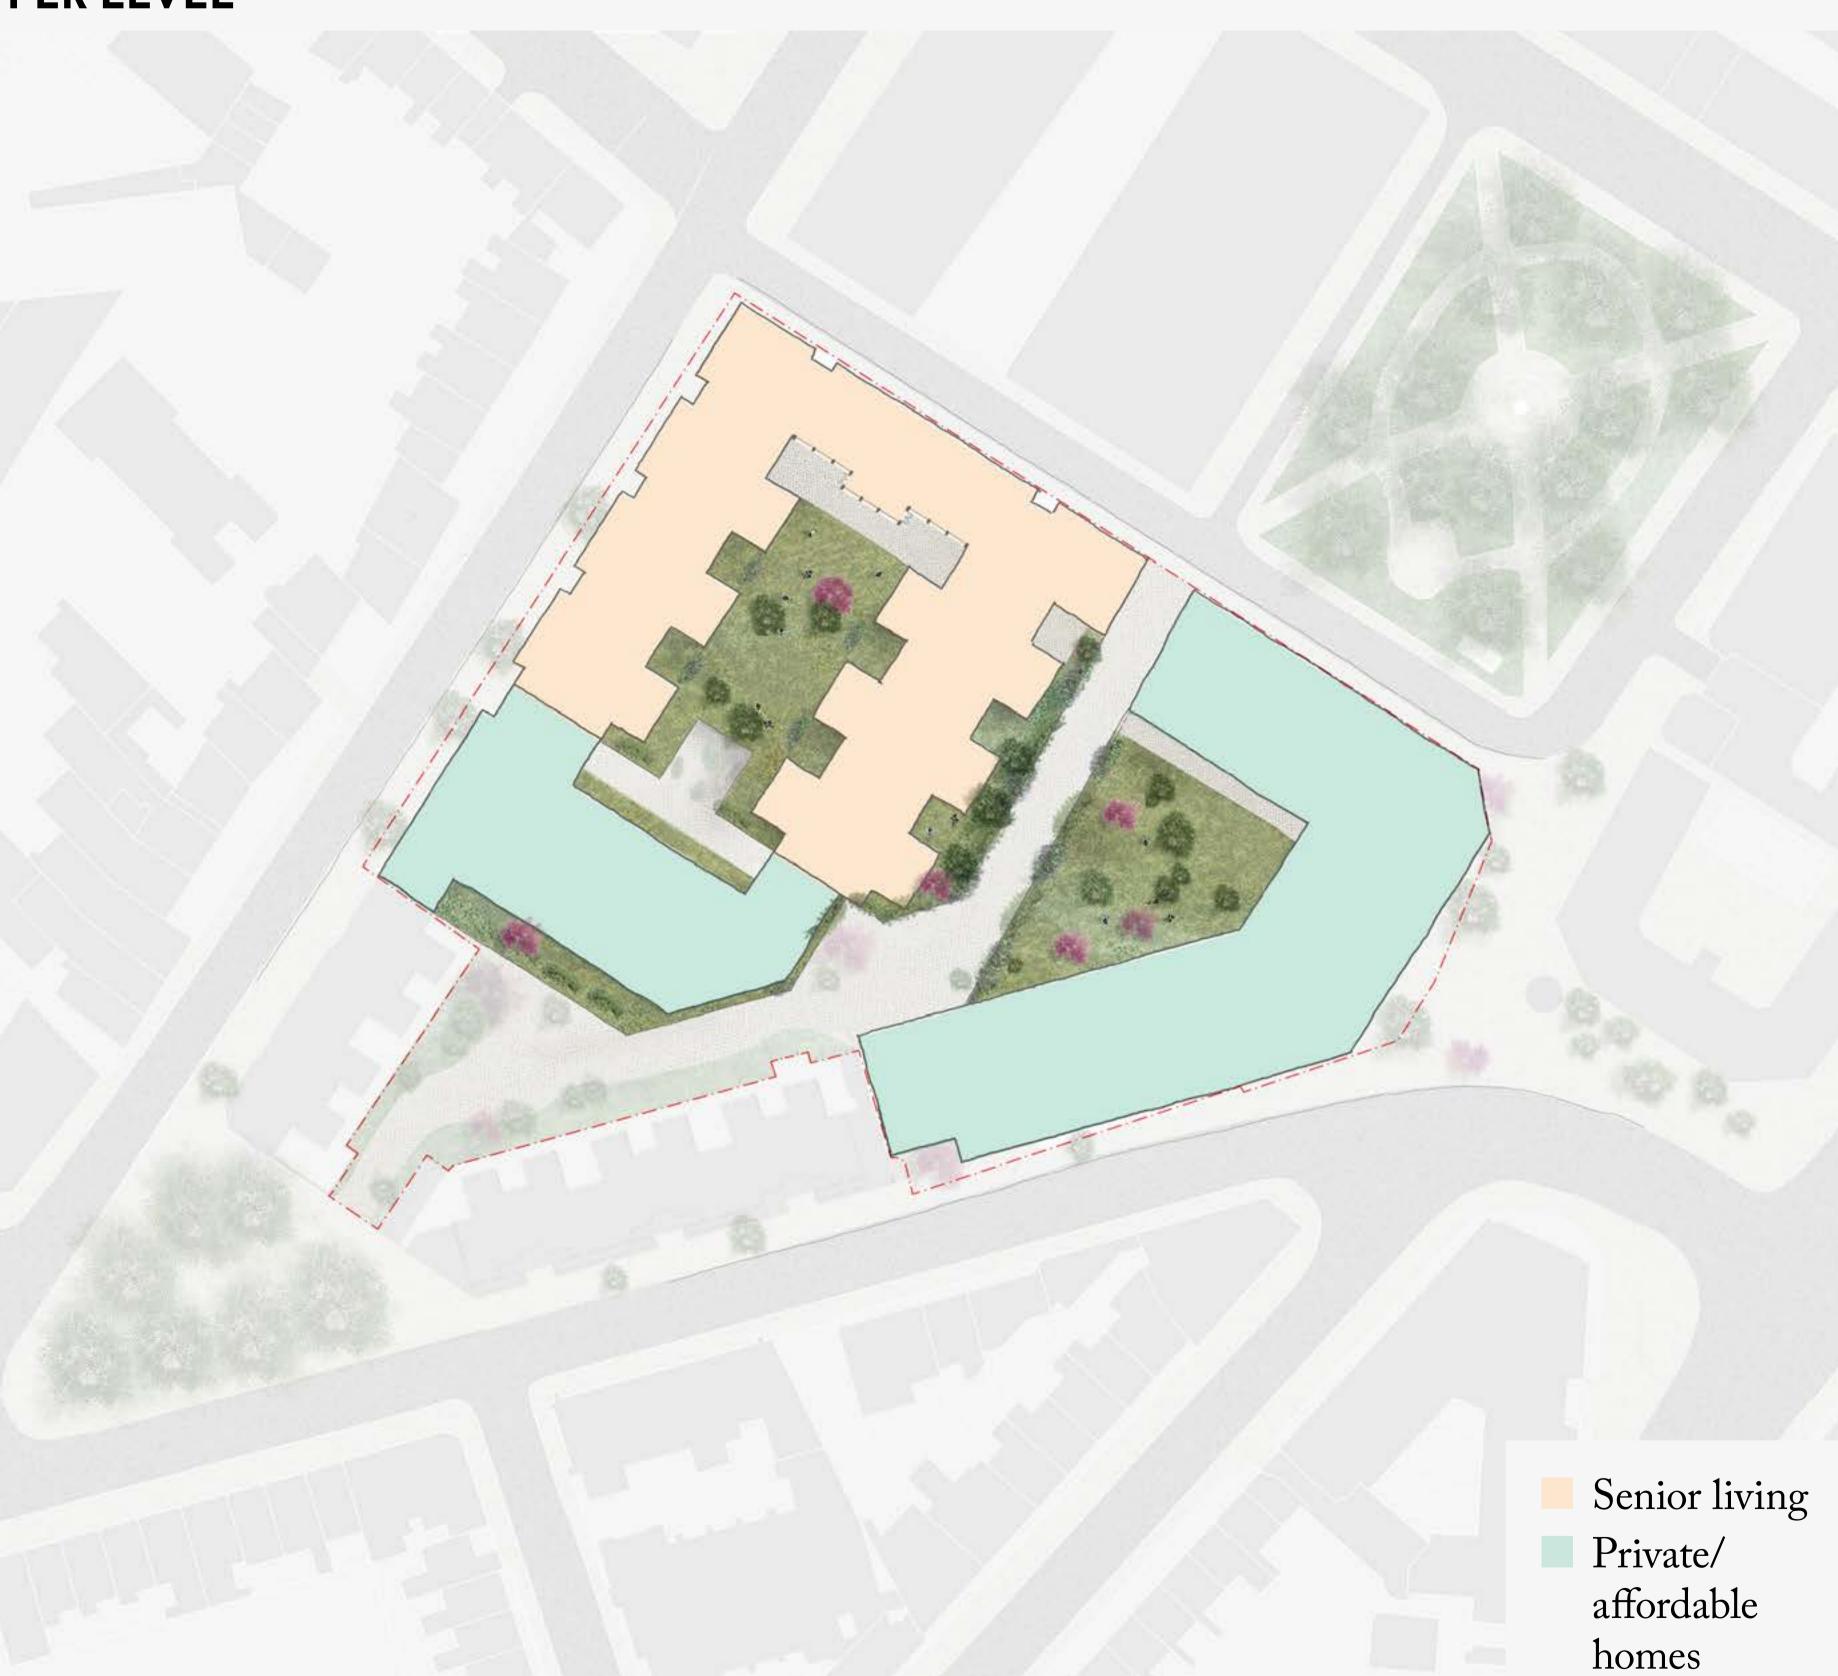

Respondents valued a mixed community with homes provided for people of all ages and incomes. Our proposals will deliver a mix of private and affordable homes, as well as homes for older people.

### **UPPER LEVEL**

## EMERGING DESIGNS - VILLAGE CENTRE

Illustrative design for the proposed new village centre

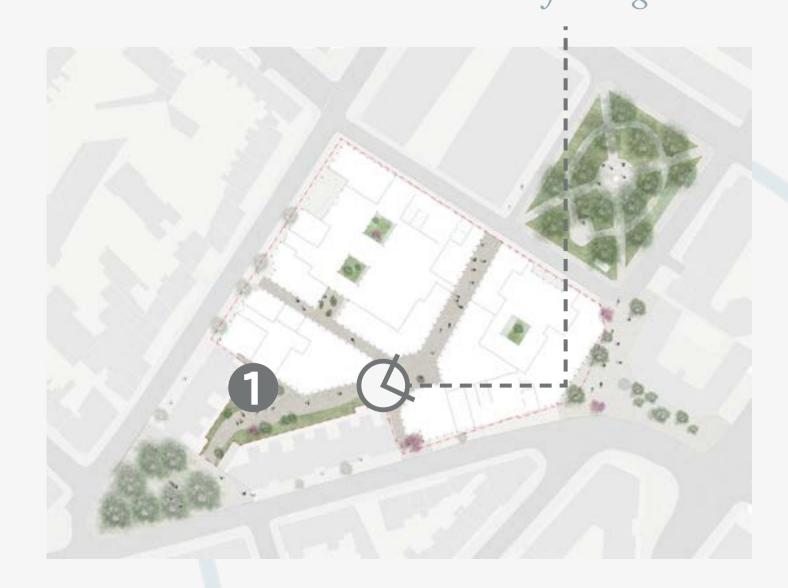

Indicative view of village centre

The new pedestrianised route through the village centre is lined with shops, cafes and other amenities, providing a meeting place for local people at its heart.

## EMERGING DESIGNS - ORANGE SQUARE

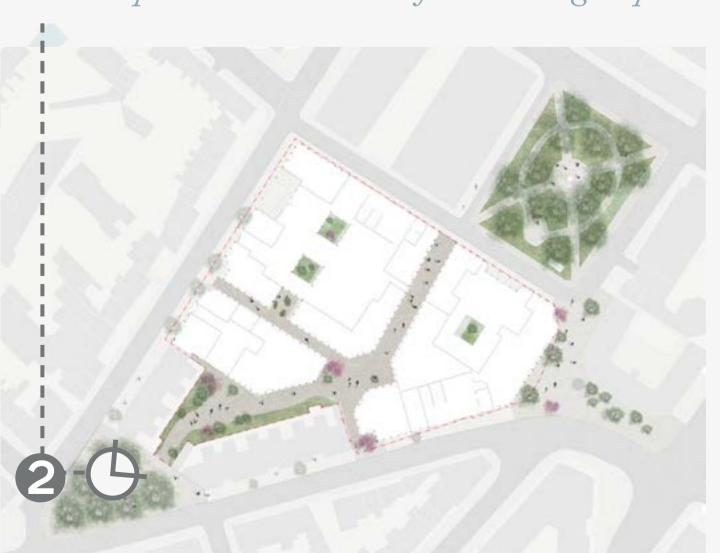

Illustrative design for Orange Square

Indicative view of entrance to the new pedestrianised route from Orange Square

A new entrance from Orange Square opens up views into the village centre, encouraging people to use and pass through the new public route. We are proposing an urban garden between the two Coleshill Buildings.

## EMERGING DESIGNS - EBURY SQUARE GARDENS

Illustrative view of Ebury Square Gardens

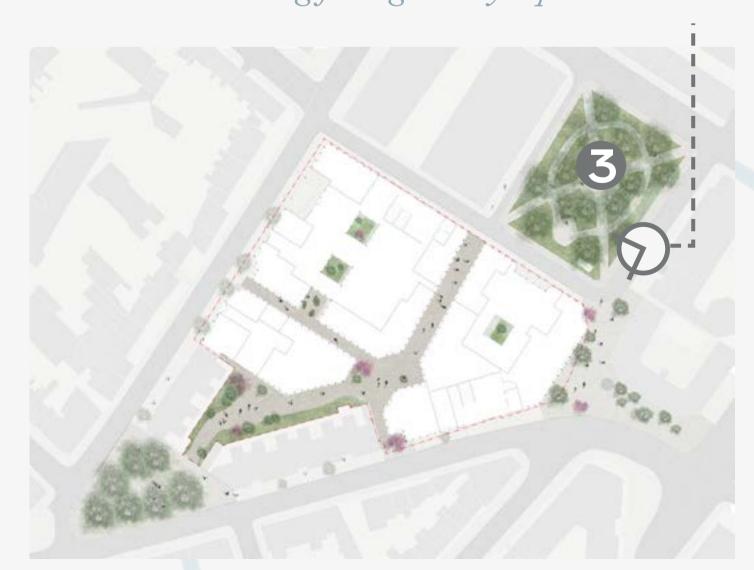

The first property of the prop

Indicative view of new landmark building facing Ebury Square Gardens

The townscape of Ebury Square is framed by existing taller buildings, providing the potential for a new landmark residential building facing Ebury Square. This building will include new homes, as well as retail and leisure at street level, bringing new life and animation to the square.

# EMERGING DESIGNS – PIMLICO ROAD AND AVERY FARM ROW

Illustrative view for the proposed redesign of Avery Farm Row

Top right: The new buildings along Pimlico Road have been sensitively designed to ensure the height rises away from the adjacent Grade II listed Coleshill Buildings.

**Bottom right:** A landmark building is proposed on the corner of Pimlico Road and Ebury Square Gardens. The adjacent block is designed to step down to meet the lower buildings along Pimlico Road.

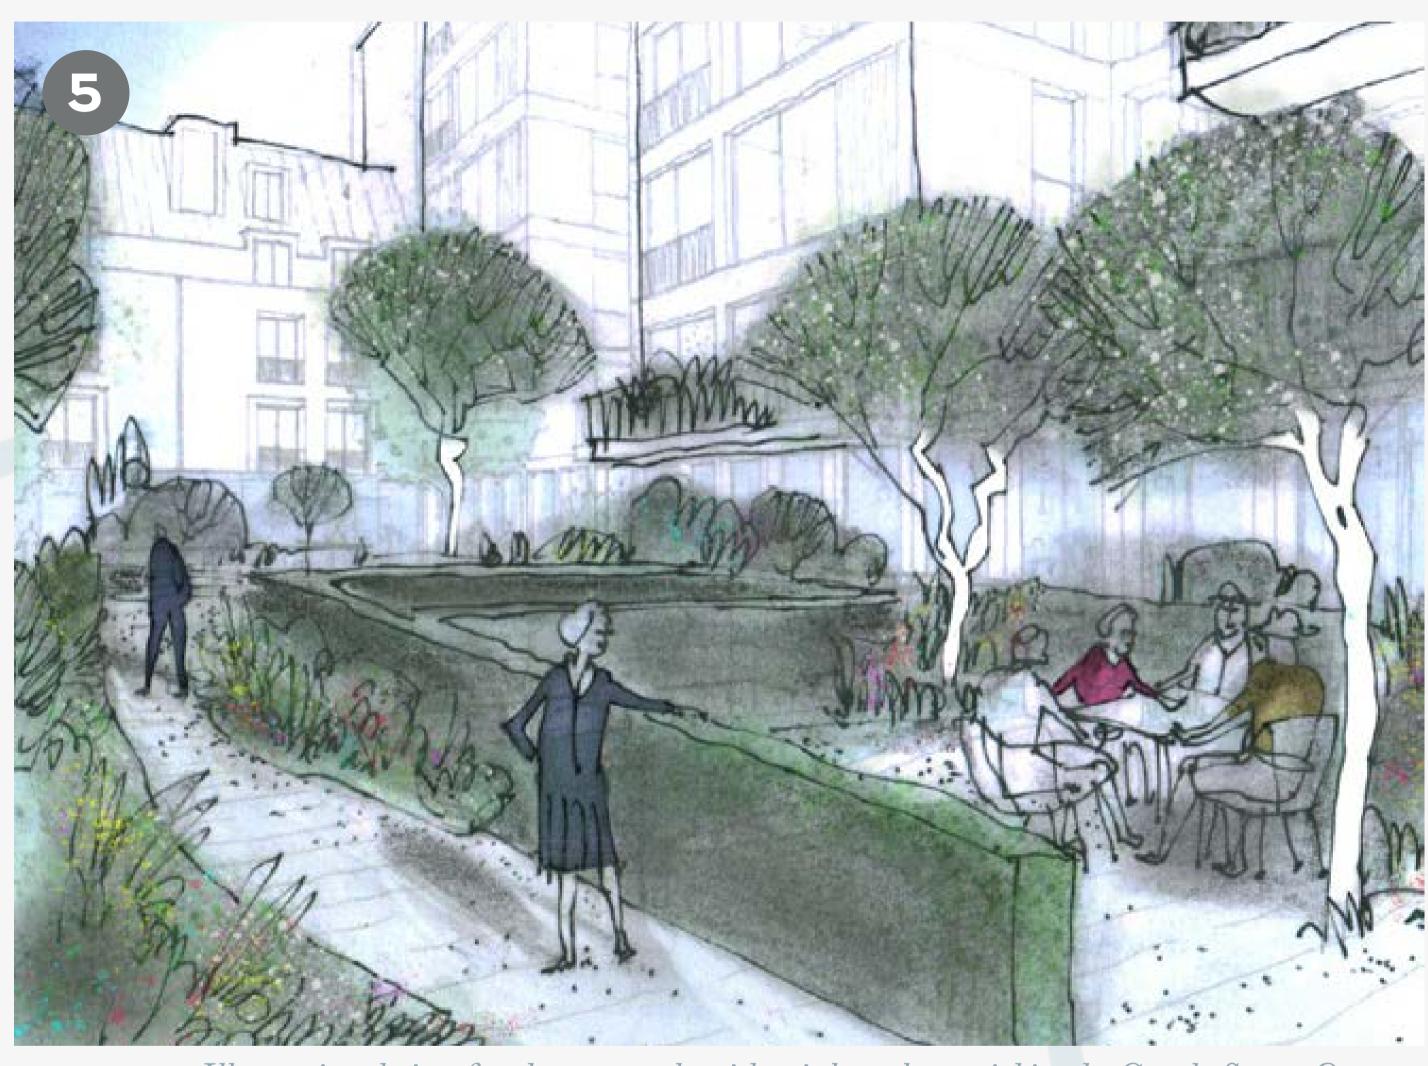

Indicative view looking north-east along Pimlico Road

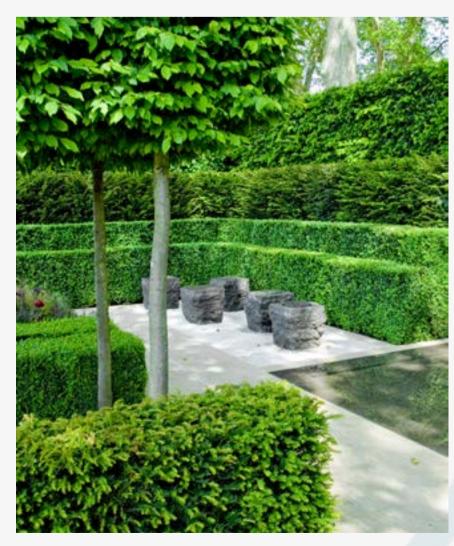

Indicative view from corner of Buckingham Palace Road and Pimlico Road

## EMERGING DESIGNS - EBURY STREET AND RESIDENTIAL GARDENS

Illustrative design for the proposed residential gardens within the Cundy Street Quarter

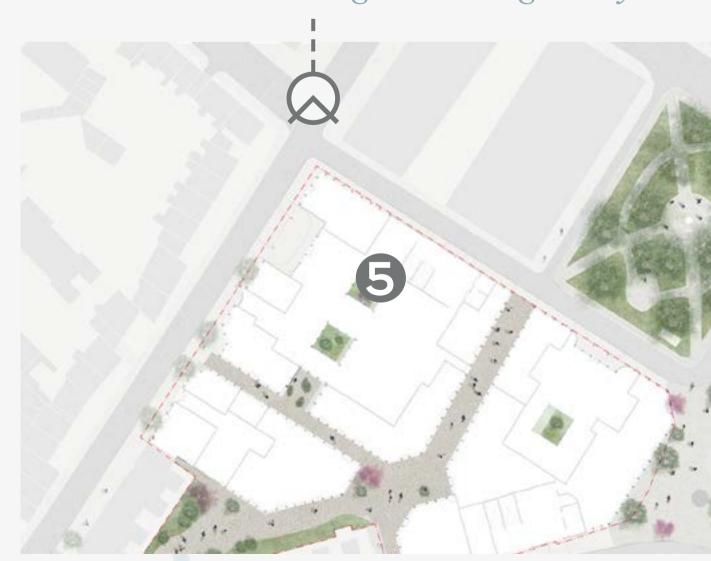

Landscaped courtyards and podium gardens will provide enjoyable social space for residents.

A mansion building design is being proposed on the corner of Ebury Street and Cundy Street to provide purposebuilt senior living accommodation.

Wider pavements, with planted trees is proposed along Ebury Street.

## LOCAL BENEFITS FROM OUR EMERGING DESIGNS

## BY CREATING A NEW VILLAGE CENTRE, WE AIM TO BRING WIDE RANGING BENEFITS FOR BELGRAVIA, INCLUDING:

Buildings that complement the historic context

Celebration of southern Belgravia's village charm

Central pedestrianised space

Connection and enhancements of Ebury Square Gardens and Orange Square

High quality architecture

Increase in number and mix of homes to help meet local and London-wide needs

New affordable homes onsite

New employment opportunities

New ground floor neighbourhood shops and amenities

New landscaping and greater biodiversity

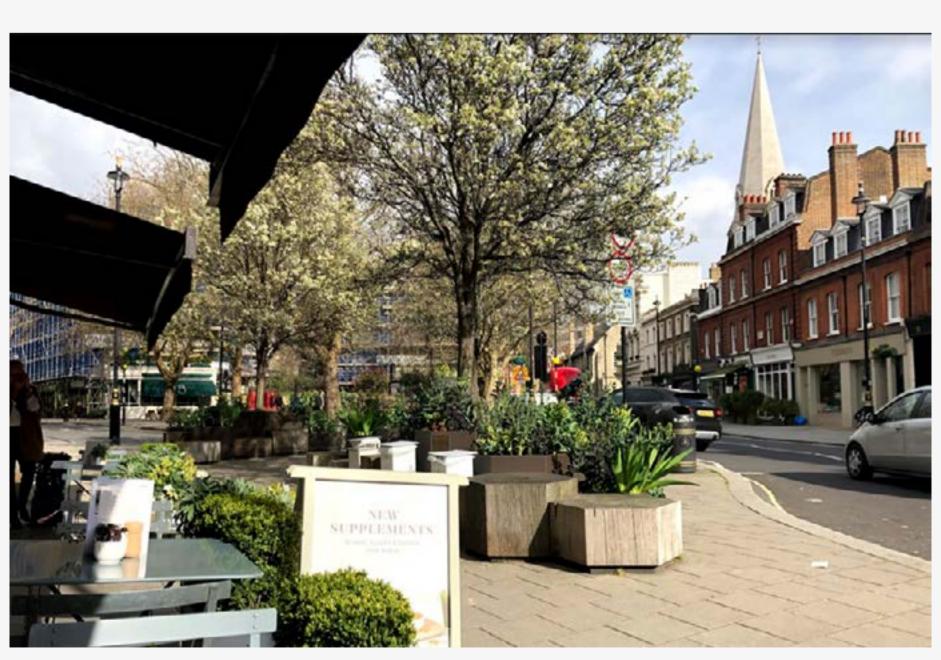

## THANK YOU

### Thank you for visiting us today.

Please spend a few minutes giving us your views by completing a feedback form. Your input and ideas are valuable as we continue to evolve our designs.

### WHAT HAPPENS NEXT?

In the coming weeks, we will be analysing your feedback and sharing it with our design team.

Over the summer, we will be developing our proposals into detailed designs.

Later in the year, we will invite you to view the detailed designs and see how your input has influenced our plans for the Cundy Street Quarter.

### **GET IN TOUCH**

Feel free to contact us if you have any questions or would like any more information:
