## Cundy Street Quarter

24<sup>th</sup> November 2022 Issue No 13

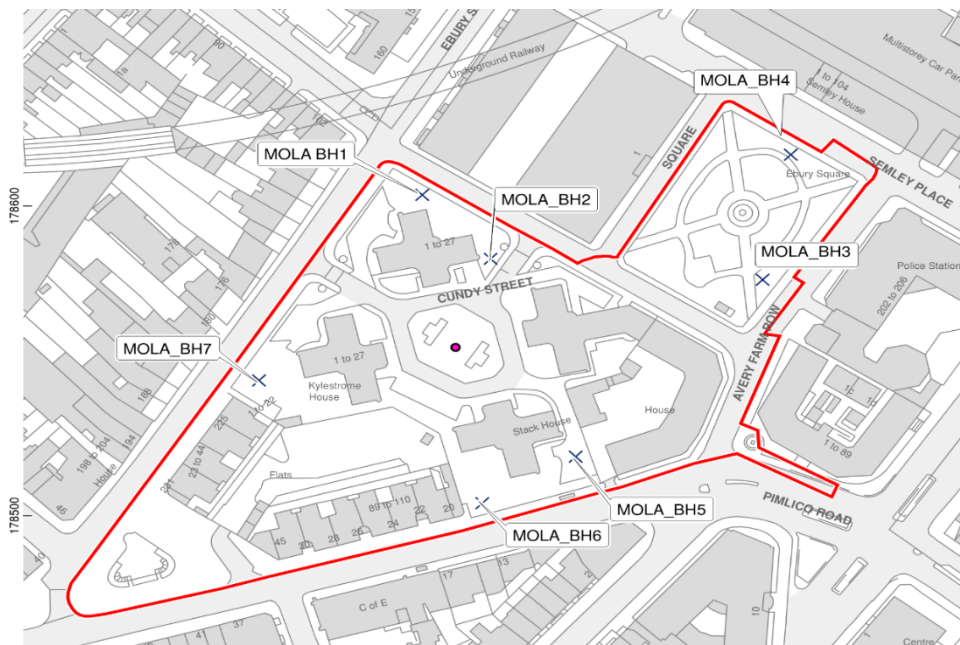

Dear Neighbours,

I hope you are all well.

As our ongoing commitment to keeping you updated on activities happening at Cundy Street Quarter, I would like to advise that Museum of London Archaeology will be undertaking archaeological investigations starting on Monday 28<sup>th</sup> of November for approximately 1 week.

This will mean that a team from Museum of London Archaeology (MOLA) will mobilise to site to undertake 7 No geoarchaeological boreholes outlined within the below approximate locations. There will 2 No boreholes undertaken within the Ebury Square Park and 5 No Boreholes within site boundary.

Museum of London Archaeology will have an appointed office based manager who will have an overall responsibility for the project. They will also have a site based site supervisor, responsible for the direction of the field team, along with archaeological staff that are responsible for the borehole excavations.

**On-site methodology**

- Starter pits will be hand-dug to circa 1.2m depth at each borehole location
- Boreholes will then be drilled using a small 1m wide rig under the supervision of a MOLA archaeologist
- The samples collected are held in 1m long plastic tubes
- The archaeologists will keep a field log of the boreholes and a photographic record of the site and cores
- All borehole locations will be reinstated once works are completed

If you have any potential questions and concerns please do not hesitate to contact me on the number below or email address

Kindest Regards

**Gabriel Stetco**

Project Manager, John F Hunt,
